

NEP 2020 is giving full thrust on Skill Education. To provide vocational skill courses is one of the basic need of the time. Thambal Marik College opens Diploma in Tourism and Hospitality as Add On Course with an intake capacity of thirty students.

Classroom teaching with pen-paper and online teaching- learning based on the prescribed syllabus are not enough for academic development of students. To explore the talents of the students regarding sports, culture, current affairs etc are also basic components in these regards. Thambal Marik College organises Annual College Week which covers the above mentioned activities and hunts the talents of the students. They are giving Certificates and Awards as a part of encouragement.

Yoga is an important part of education now-a-days. In this modern era, people are running fast and they got no time to walk in a park or stadium. It involves movement, meditation, and breathing techniques to promote mental and physical well-being. With this aim, our college opens mini gyms only for girls' students and faculty ladies'. Everyday in two shifts, morning for girls' students and in the evening for teachers Yoga is done for half hour in the mini gym's hall. Every year on the 21<sup>st</sup> June *International Day of Yoga*, we observed a part of it in our college. All the employees of the college took part in it. With the implementation of NEP 2020 from the next academic session, we have decided to include Yoga in the Value Addition Course in the interest of the students.
